NAVAL COMPETITION OR WORLD DISARMAMENT

PROPOSITION CONFRONTING AMERICAN
NATION AND ONE WHICH HOUSE NAVAL
AFFAIRS COMMITTEE IS WORKING ON

U. S. AND JAPAN LEAD BUILDING

WASHINGTON, Dec. 15.—With the United States on the cross roads leading either to naval competition or a world agreement to limit armament the House Naval Affairs Committee today set out to learn what the other great powers are doing in the warship construction business. To gain this information the Committee called Admiral Robert E. Koonz, chairman of naval operations. Data obtained here today in naval circles indicated that the facts Koonz had and which he will elaborate upon before the House Committee are:

First, Great Britain while possessing tonnage almost twice that of the United States has checked her building for the present.

Second, the United States, on the basis of her program now under way, will surpass the British navy by 1925 unless the British adopts new building measures.

Third, Japan while actively engaged in building both large and small warcraft will remain far behind the United States.

Japan's navy now includes five capital ships totalling 157,460 tons. With seven ships under construction Japan's tonnage will total 418,860 tons.

The United States today possesses ten battleships and ten cruisers but eleven more battleships are being built.

Britain, which abandoned many of her vessels when the armistice was signed today is believed to be building five light cruisers and seven destroyers and nineteen submarines.

It is even possible that England has cancelled some of them. Thus the United States and Japan are the only two nations active today in extensive naval construction. At the present time, however, Britain's first line strength is estimated at 864,650 tons, nearly twice that of the United States.

REPUBLICAN IRRECONCILABLES IN SENATE FEAR HARDING'S LEANING TOWARD LEAGUE

MARION, OHIO, Dec. 15.—Rumbles of possible insurrection among Republican irreconcilables in the Senate were reaching President-elect Harding, through various channels today. He may call some of the leaders to Marion shortly with a view to nipping in the bud any insurrection movement. Primarily the irreconcilables fear Harding is leaning too far in favor of the League of Nations, according to advices reaching here. Harding is in close touch with the Senate situation.

Raymond Robbins, Chicago Progressive was to be here today to lay before Harding what his own wing of the party expects as to domestic legislation and the labor situation. Reports that Robbins is being considered as Secretary of Labor was strengthened by his appearance here today. He has always been friendly to organized labor.

SENATOR M'CUMBER OF SENATE FINANCE COMMITTEE AGAINST BONUS TO SOLDIERS

WASHINGTON, Dec. 15.—Granting of the soldier bonus at the present time would impose a great hardship on taxpayers, Senator McCumber, of North Dakota, acting chairman of the Senate Finance Committee declared today. The fight to have the Senate adopt a bonus bill passed by the House last session was opened today before the Senate Finance Committee by representatives of world war veterans. A decision on the bill will be reached at this session of Congress McCumber declared.

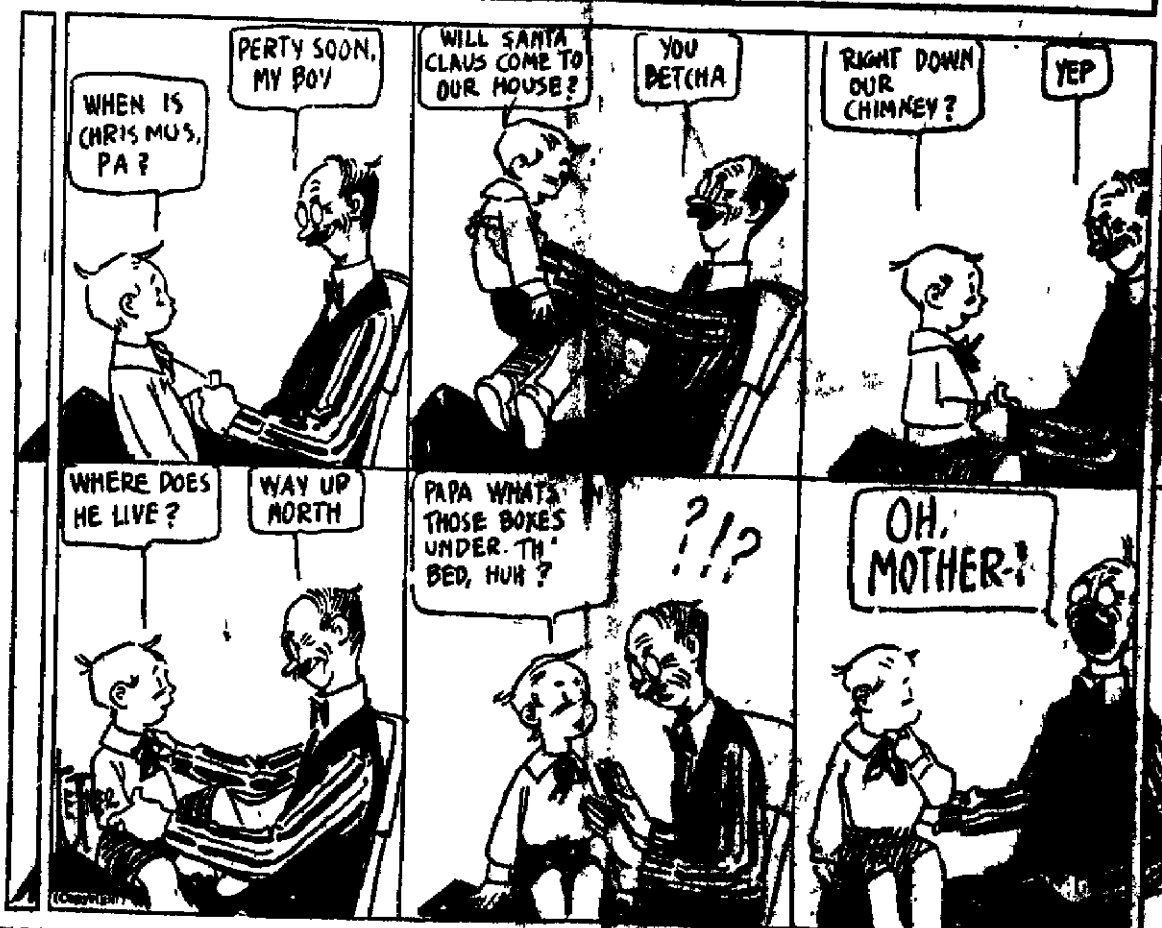

\$25,000 FIRE AT UNIONTOWN

UNIONTOWN, Dec. 15.—A loss of \$25,000 was caused early today when fire destroyed the plant of the Fairchase Lumber Company near here. An investigation has been made to determine whether the incendiary band believed to have operated in this district is responsible.

HENRY MORGENTHAU PRESIDENT'S ARMENIAN MEDIATOR

WASHINGTON, Dec. 15.—Henry Morgenthau, former American ambassador to Turkey has been appointed as President Wilson's personal representative to mediate in Armenia. It was learned today.

The End of a Perfect Day

ALAS! POOR BIDDY! HOMEWARD FLIGHT BRINGS DISASTER

There may be some bad in the best of us and some good in the worst of us, but it goes without saying that the average American packs a warm six-cylinder, humane heart beneath his ragged or broadcloth vest. This fact was demonstrated at the Market street bridge this morning.

"Mac" McGinnis was out rather late last evening and when his good wife went out to feed the chickens she found a strange hen in the coop. Feed being high the stranger was "given the gate" and got out into the yard as Mac got up from the breakfast table. He made a rush for the hen, but it was not to be caught napping in day light and promptly flew to the top of the Market Street garage.

After getting so high up in the air Biddy gave the landscape the once-over and recognizing her home coop on the west side of the river she set sail for familiar scenes. Her supply of gas gave out or engine troubles developed in mid-air. At any rate the poor hen lit in the water 75 feet from shore and was carried down stream by the flood.

A workman, dinner pail in hand was crossing the bridge when Biddy made her fly and watched the fight with interest. When she plunged into the water he raced across the bridge and followed down along the bank and when the current washed the drowning hen within 20 feet of the shore he waded into the icy water up to his waist and pulled her out.

He took the bedraggled Biddy into the nearby home of a sympathetic West Side woman and together they attempted to restore the hen to consciousness. The hen was given artificial respiration and all the first-aid mentioned in the books and made to disgorge a considerable quantity of water; then wrapping her in a sweater she was placed in a warming oven, but despite all this attention she failed to respond and today is marked "missing" on the roll of a West Side poultry raiser.

To make matters worse "Mac" says he bought the chicken last evening and forgot to tell his wife about the new arrival. But we don't know.

DEMPSEY WON IN TWELFTH

New York, Dec. 15.—Heavyweight Champion Jack Dempsey in Madison Square Garden last night was forced to reach deeper than ever before in his unsounded fighting depths to render prostrate a ring opponent. In a dramatic fight with Bill Brennan, the great champion was finally able to score an electrifying knock-out victory in the middle of the twelfth round, but he was smeared in his own blood and a painfully scarred champion when his terrific punches dropped the courageous Brennan to the floor. The finish came after one minute and 57 seconds of fighting in the twelfth round of what was billed as a 15 round battle for the championship of the world.

1920 TEACHERS' INSTITUTE TO BE HELD NEXT WEEK

County Superintendent Trostle will present highly entertaining program.

AT HIGH SCHOOL AUDITORIUM

The annual county teachers' institute will convene in the high school building (auditorium), next Monday, December 30th at 1:30. A feast of good things is in store for the teachers and also the citizens of Clearfield who are most cordially invited to be present at each session. Instructions of national reputation will be present at the day sessions. Ex-Gov. Martin Brumbaugh will be present during the entire week and will present in his inimitable and entertaining way subjects of vital importance to our teachers. Dr. Lincoln Hulley of the John B. Stetson University of DeLand, Florida, will also be present during the entire week. Dr. Hulley needs no introduction to a Clearfield audience, having been here about eight or nine years ago and delighted and instructed the teachers with his work on literature. Dr. Hulley is also known from the Gulf to the Lakes and from the Atlantic to the Pacific. The State Department of Public Instruction will have two or three of its representatives at the institute and will discuss with the teachers and directors topics of present moment in bridging the crisis through which our public schools are now passing.

The night entertainments are all of a high class. The management of the institute has attempted to procure the very best talent which money can buy, compatible with our finances. The Monday evening attraction the "Lycum Singers" is essentially a "Singing Male Quartet." The Vocal Quartets, Instrumental quartets, trios, solos, etc., will furnish an abundance of action, plenty of fun and enough variety to suit the taste of the musically educated and the casual concert goer.

Dr. Edward Amburst Ott, the lecturer for Tuesday evening needs no introduction to a Clearfield audience, as his ringing message on "Victory" is still resounding in the ears of all who heard him at Chautauqua last summer. He will lecture this time on "The Spenglers," a very timely subject for our nation. Dr. Ott's lectures always leave an influence for good on his audience and the community.

On Wednesday evening Clearfield will have the pleasure of hearing one of the very best concert companies on the road, "The Adelphi Concert Artists." Each member of this company has won laurels in the field of concert, recital and oratorio, and has been at some time a member

AFRICAN ALARM CLOCK WARNS OF NIGHT ROBBERS

David White, an East End colored man, is off that Good Samaritan staff for life, following a drama in which he was an unwilling actor at the finish about 2 o'clock this morning.

White was up town yesterday and ran into two strange men.

John Royston, of Harrisburg, and Charles Smith, of Atlantic City. They came to Clearfield from Tyrone yesterday morning "hunting" work. They have likely found the work house.

The two strangers hailed White and when they told him they were up against it, he very generously took them home with him and put them up for the night. White rooms at Miss Robinson's boarding house on Daisy street and as there was only one bed in the room all three men rolled into the one bed. Before retiring White took the precaution to deposit his pocketbook containing \$31.72 in cash in his sock for safe keeping.

The most sensitive part of an African's anatomy is said to be his shin bone, which no doubt accounts for White's locating of his wealth. He was wise in his day and generation for about 2 o'clock his personal alarm clock told him strange fingers were searching out his wealth. He awoke with a start and rolled out of bed; it was his turn too, because his companions had already "rolled" him for his "wad."

White made a howl but his money was gone. He got out and called the police. Chief Hitt and Officer Brink were soon on the job and about 4 o'clock the two strange, coons were rounded up and White's missing purse with the \$31.72 intact was found on Smith. The men were placed in jail and their search for work will no doubt result in their securing a job with the state over at Rockview following next week's criminal court.

LIVERGOOD—YOUNG

Robert B. Livergood and Miss Grace M. Young, both of Woodland, were united in marriage at 12 o'clock today by Rev. John P. McCurdy at his residence, 115 Cherry street. The ring service of the Methodist church was used.

The groom is a fine young man. The bride is the third daughter of Mr. and Mrs. D. E. Young and is one of Woodland's most popular young women. Their many friends join in best wishes and congratulations.

of the famous Philadelphia Orchestra.

On Thursday evening Dr. Preston Bradley of Chicago, will deliver his thrilling lecture on "The United States of Tomorrow." Dr. Bradley is an orator of first rank and a student who delves beneath the surface of the vital questions that confront our nation. His lectures always produce a profound impression. Do not miss hearing him.

THREE NAVAL MISSING IN AIR

HUGE NAVY BALLOON STUCK
ROCKAWAY POINT, N. Y.
SNOW-SWEPT MOUNTAINS

MAY HAVE FALLEN INTO SEA

ROCKAWAY POINT, N. Y., Dec. 15.—Among the wind swept Adirondacks today is a huge balloon with three naval officers hanging from it. The huge aeroplone started northwest from here toward the snow-capped hills of New York state that the balloon had fallen into Canada. Three of three aboard or had been pushed against the mountains by the high wind. One was Walter Hinton, of the transportation staff, who was of the big gas bag. It was supposed that the three had been forced to descend in some valley where communication with the station is impossible.

SEVENTY YEAR OLD BOSTONIAN \$300,000

BOSTON, Dec. 15.—Edward David Rice, 70, who than was arrested on an indictment charging \$300,000 from two Boston banks. Rice is charged with having obtained \$150,000 from the National Trust Company from the New England Trust Company's presentation.

WHOLESALE SAIL \$100,000

TULSA, Oklahoma, Dec. 15.—A man to 90 days in the city jail escaped about 11 o'clock. A master call took on a few minutes.

ENTERTAINED FELLOW EMPLOYEES

The employees of the County National bank tendered a banquet at The Dining Room last evening to Miss Esther Rowles and Alva Brothers, fellow employees at the bank, and who leave the service January 1, 1921. There were twenty-four present and an enjoyable evening. Manager McGinnis did himself and his hostery proud upon this occasion and the substantial part of the banquet was all that could be desired.

ROBBERY AT O'BANTRY

Recently while Mrs. J. S. Aughenbaugh and her son Alton, of O'Bantry were attending Ladies' Aid meeting at James Johnson's home there; entered their house and broke open the latter's savings bank and stole the contents. This makes the second time the Aughenbaughs have been robbed in little over a year, and a former tenant in the same house was also robbed shortly before that time.

Man, to Fight the Influenza, Must Go Back to the Old-Time Nightcap.

By LOUIS SAINT MAURICE, French Physician.

Years ago, when nightcaps were universally worn, no one ever had colds, either in the head or in the chest. Lagrippe was unknown, influenza had never been heard of.

On the other hand, art and literature of the past, well up to the Eighteenth century, show that every one, rich and poor, young and old, men and women, all wore nightcaps. Toward the end of the Eighteenth century the nightcap began to fall into disuse, and in less than 100 years it has practically disappeared.

On the other hand, the need of protection for the head during the night has increased. The protecting shell of bone, the cranium, is getting thinner to make room for the larger brain.

Investigation proves that a cold in the head is the necessary setting for an attack of influenza. Further investigation shows that in an overwhelming majority of cases, a cold is "caught" during the night, while one is in bed. As a preventive against the Spanish "flu," there is not a better precaution than wearing a woolen nightcap.

Recent 5,800-Mile Circle Tour of the National Parks Is Significant.

By STEPHEN T. MATHER, Director National Park Service.

The recent 5,800-mile circle tour of the national parks of the West by a large caravan, traveling on a predetermined schedule without regard to weather conditions, has a large significance. It has demonstrated that these wonderful regions belonging to the people may be visited. It has shown that all parts of the country, particularly those carrying camping equipment and living out-of-doors, without fear of finding impassable stretches which would break up their trip as they journey from park to park.

I believe the opening of the National Park-to-Park highway will greatly stimulate automobile travel to the West next summer.

In addition to demonstrating that good roads connect the parks—Rocky Mountain, Yellowstone, Glacier, Mount Rainier, Crater Lake, Yosemite, General Grant, Sequoia, Grand Canyon and Mesa Verde—it has shown that these communities to the need of providing comfortable automobile camps for visitors, not only as a matter of hospitality, but as an investment, for such tourists necessarily spend much money in the towns they visit, and mean new population in that some of them decide to settle.

In certain states through which the highway runs most of the land belongs to the federal government. Such country is usually sparsely settled. In such cases, particularly where the road would be used principally by motorists en route to the national parks from all parts of the United States, it would seem that the federal government would be under the obligation of repaying the cost of such sections of the inter-park system.

States must do their part in creating state parks to supplement the national park system. It ought to be made possible for a family to start in their little automobile from the Atlantic coast and spend every night in the open on ground set aside for the purpose.

The Dog Watch.
"Dog-watch" is a corruption of "dog-watch." On board ship there are two sorts of watches—the "long watch" of four hours, and the "dog-watch" of two hours, but, strictly speaking, a watch means four hours. The dog-watches are two short watches, one from 4 to 6 in the morning and the other from 8 to 10 in the evening. The "dog" in the watch, or prevent the same men at ways keeping watch at the same time.

Delectable Prerogative.
During the reign of Louis XII kissing was very popular at court. Every dance movement ended with every man kissing his partner, and no gallant thought of greeting a lady friend without kissing her on the lips. The king, himself, enjoyed this to the full, and always kissed every pretty girl at any dance or entertainment he attended. At social affairs it was a custom for courtiers to watch Louis, and when he was in high good humor ask such favors as they wished.

Apostle's Creed.
The origin of the Apostle's Creed is not fully determined. It is supposed to have been taken from the confession of Peter (Mark 16:16) and from the baptismal invocation which determined the trinitarian order and arrangement. The earliest mention of the Apostle's Creed is found in the works of St. Irenaeus against heretics. He died in 202 A. D., when about 80 years old.

Variation in Carpets.
Most carpets and rugs have but one visible side. Brussels has a pilelike velvet, but the pile is uncut. Wilton is heavier and more durable than Brussels, and the pile is cut, whereupon it appears like velvet. This carpet is so closely woven that it holds its surface. The Axminster rug (technically spool knotted) is very much like Wilton, but has a looser weave.

IT PAYS TO HAVE GOOD HEALTH
Most Illnesses are Prevented by a Good Supply of Rich, Red Blood
Take Pepto-Mangan, the Red Blood Builder

Either you are in good health or you are not. There's no half way. You may think nothing of being a little run down. It may not worry you if you look pale. You may think you'll be all right tomorrow or next day. But will you?

Certain it is when you do not feel just right, you are not right. There is probably something the matter with your blood. And while you can get around and do your work you are leaving yourself open to any of the diseases that are always waiting to take possession of run down people.

Take Pepto-Mangan for awhile. It is a great tonic. It will build up your resistance to disease, and you will soon feel stronger. The little red corpuscles are fighters. They battle with disease germs and win out when there are enough of them. Keep your system well supplied. Then you will keep well and you will enjoy life.

But be certain you get the genuine Pepto-Mangan. Ask for it by the full name—"Gfude's Pepto-Mangan." Some people take it in tablet form. It is so convenient. The liquid and the tablets have the same medicinal value. Look for the name "Gfude's" on the package.—Adv.

BILL GARDNER'S MANAGER WIELDS A WICKED PEN

Clearfield, Pa., Dec. 14, 1920.
Sporting Editor, Progress,
Clearfield, Pa.

Dear Sir:

Please give me space in your valuable paper sufficient to once more challenge Paul Bauble, Kellytown's windy 145 pound wrestler. Bauble, as his manager, and a few of his friends have been talking for some time about what Bauble could do to Bill Gardner on the mat. We have tried to make a match with them for some time in order to give them a chance to make good their boasts, but so far can't get anything out of them but wind.

Will try once more by offering to match Gardner against Bauble for any amount at any time or place, with a sky-limit side bet. Gardner is hauling coal every day, but will lay off long enough to lay Bauble on his back. Now let Kellytown's "tin horn" sports put up or forever after shut up.

NEWS OF OUR NEIGHBORS CURWENSVILLE

Two or three wagon loads of camp equipment passed through town yesterday afternoon on the way home from mountain camps. One of the wagons was loaded with four men, and the other three with one man each. In conversation with some of the hunters, it was learned that they had never been in the woods as happy as they were now, and had never felt better physically. There was hardly a man among the entire crew that was more than twenty-five years of age, and for more than a half dozen of them it was their first attempt at deer hunting.

Frampton Bailey and family have departed from Curwensville for their new location at Warren, Ohio. The

best wishes of their many friends here go with them.

PIPELESS FURNACES

Lead all heating appliances for the home, church, factory and store. A standard Ohio manufacturer desires four responsible men to take over dealerships in different sections of Clearfield county. The object is to have men who are in position to entertain car lot buying, as the returns from sales to the consumer, brought about by factory co-operation, are so fruitful as to make the work a pleasure. Practical furnace men not essential, as our largest dealers are those who had never previously seen a heater, other than their own. Address the undersigned, who looks after Clearfield county, and who will take matters up with parties interested. G. D. WEAVER,

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

Tells Why Everyone Should Drink Hot Water Each Morning Before Breakfast

To see the healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside bathing every morning for a week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a fine appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to demonstrate that those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges or whose skin is sallow or pallid, that one week of inside bathing will have them looking and feeling better every way.

The big crops produced by the American farmer may be relied on to solve more problems than eloquence could hope to dispose of.

Look out for the man who professes to love peace but spends his time trying to create distrust between the United States and another nation.

The corn crop totals 3,200,000,000 bushels and then some. If anybody runs out of polite bread making this winter it's not the farmers' fault.

Looking over the many suggestions that are being made with regard to war memorials, few of them come from the men who have the money.

A Holland visitor in America says the outla board is causing insanity in Europe. Probably it is not causing insanity, but is just an evidence of it.

Agricultural education does more to put and keep the farmer on a plane of absolute equality with business and professions than any other equalizing factor.

An interesting subject for abstract discussion is whether short skirts are responsible for silk stockings or whether silk stockings are the cause of short skirts.

The divine who predicts that a device will be invented to record messages from the spirit world evidently forgets that the ouija board already is in universal use.

Automobiles are going down in price, but gasoline appears to have very little sympathy with the movement. Something should be done about that at once.

The Russian government will allow to each person only one suit of clothes and one pair of shoes. If matters get worse, of course, this allowance will have to be cut in two.

A good many people criticize the shapes of the men in the clothing ads but if you will go to the seashore you will see where the artists get their idea of the masculine form.

They say it is the middleman who inflates the price, but there is also the "overhead" and, we suspect the undertone, to say nothing of the supplemental costs at the cemetery.

It is becoming apparent that a good many dealers of one sort and another are going to accept the price decline about as gracefully as a cat emerges from a barrel when dragged thence by the tail.

Pilgrim Fathers Were Separatists.

The Puritans sought the reform of the Church of England. The Pilgrims were Separatists from the first, who had already left England and formed an independent congregation in Leyden, whence they came to New England. They numbered forty-one families, 102 persons, landing at Plymouth December 20, 1620. They had previously made a covenant known as the Mayflower covenant, which bound them into a civil state with a religious basis. They wished to found a church without a bishop and a state without a king.

BE PRETTY! TURN GRAY HAIR DARK

Look Young! Nobody Can Tell if You Use Grandmother's Simple Recipe of Sage Tea and Sulphur

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it through your hair, tending one small strand at a time: by morning the gray hair disappears, and after another application of two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet preparation for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

This cutting edge lasts as long as the PLUMB HATCHET

WITH a cutting edge that lasts as long as the hatchet, a broad eye for strength, the tapered bit for fast cutting, the balanced head for easier and better work, is it any wonder that PLUMB Tools are preferred by expert machinists, carpenters and tool users the world over.

PLUMB Hatchets are forged outright from a single piece of high-grade special alloy steel.

The bit extends solid for two full inches above the cutting edge—it can be ground and reground.

PLUMB Tools enable a superb mastery of every bit of work for which they are intended. They have a beautiful non-rust finish and mahogany handle that delights the eye of the true workman and makes him say

"They're Worth More"

We sell the full line of Plumb Tools. Hammers, Hatchets, Axes, and Stages.

Irascibility Denotes Sickness.
Parents would do well to remember that when their children are cross or irritable the reason is not so often mean dispositions as an illness of some sort. In young children irritability is one of the first symptoms of physical discomfort. If the cross child is given proper attention at once very often the establishment of disease can be prevented. The best method is to restrict the diet and stimulate the elimination till the child's disposition is normal again.—Exchange.

Chinese Like the Phonograph.
The phonograph has found great favor in China. Chinese buyers like cheapness, and they do not mind the scratching so long as the machine is loud enough. The record-making is most expensive, the most famous Chinese records and singers being engaged. The Chinese do not care for foreign records, except for laughing songs and loudly clashing instrumental selections, with the bugle and drum.

No Time for "Common" Lunch.
Daddy was eating as hearty a lunch as usual, when sister said: "Daddy why are you eating so much common lunch? Don't you know we're going to a party this afternoon?"

Peculiar Maori Belief.
Present-day Maoris are nominally Christians, but there are many old chiefs who are still fond of their ancient totem poles. Their religion is that of nature worship combined with the veneration of ancestors. A peculiar and interesting detail of their religion is in the belief that the soul dwells in each human being's left eye. The Maoris were confirmed cannibals in by-gone days.

A CLEARFIELD INTERVIEW

Mrs. Confer Tells Her Experience
The following brief account of an interview with a Clearfield woman seven years ago, and its sequel, will be read with keen interest by every citizen.

Mrs. John R. Confer, 1111 Dorey street, Clearfield, says: "I have used Doan's Kidney Pills and found them to be an excellent medicine for back-ache and kidney trouble. Another of the family has also used Doan's for distressing pains in the back and has derived benefit from their use. I have nothing but the highest praise for Doan's and I am always glad to recommend them to others suffering from their kidneys. I bought this medicine at Woodward and McPherson's drug store."

(Statement given Dec. 8, 1912.)
On February 18, 1919, Mrs. Confer said: "I haven't had to use Doan's Kidney Pills since I last recommended them in 1912. I still think highly of this medicine."

The Brunswick Method of Reproduction

Only Brunswick has these overwhelming advantages

THE Ultona has two parts in the exclusive Brunswick Method of Reproduction.

First, it plays all records just as they should be played. A turn of the hand presents to the three types of records the proper needle and diaphragm, at the precise angle and with the exact weight required for correct reproduction in each case.

Second, being delicately counter-balanced, it banishes the scratching noises due to a rigid tone arm.

The Oval Tone Amplifier is shaped on a radically different principle from that used in other phonographs. Made of specially treated wood. No metal is used. The metallic, blasting sounds due to a cast metal throat are absent.

It allows sound waves to expand and amplify properly, according to the most advanced acoustical and musical laws.

These two features combine to make Brunswick tones sweet, true and natural. Your own ear will quickly note the great difference, the vast improvement.

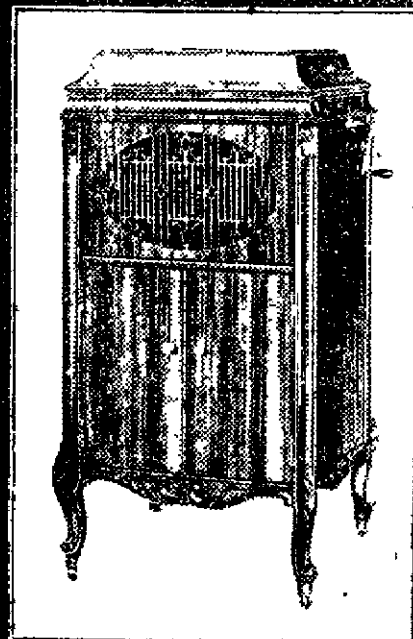

Tone, of course, is the thing in a phonograph. But appearance should not be ignored. Most people know that Brunswick was famous for master woodworking half a century ago.

Come in and hear The Brunswick and Brunswick Records, which are played on any instrument using steel (or fibre) needles.

Thought he Would Have to Give up Job but is Full of Life and Energy Since Taking Tanlac

"I didn't believe half they were saying about Tanlac until I tried it myself and now I don't doubt anything good I read or hear about it," said Nicholas Runco, conductor on the interurban lines of the Southern Cambria Railway Company, who lives at 60 Woodvale avenue, Johnstown, Pa.

"Before I began taking Tanlac I was in such a badly run-down condition that I could hardly stay on my feet and was afraid I'd have to give up my job.

"My appetite went back on me, I suffered from constipation, felt weak and tired all the time and got up in the mornings feeling worse than when I went to bed. I lost weight continually, had no energy and got home from my run in the evenings entirely fagged-out.

"While talking to one of the fellows one day about my condition I made up my mind to try Tanlac and it was the wisest thing I ever did. My strength and energy have come back since I started on Tanlac and I am picking up in weight right along.

"I have taken on a good healthy color, my eyes are bright and clear and I am brimful of new life and energy. The way I eat now is a caution, and my appetite is so keen that meal-time comes too slow for me. In fact, I am feeling fine in every way and Tanlac will always get a good recommendation from me."

Jack Rabbit Surely Means.

Out in Kansas a crazy Jack rabbit started up beside a passenger train making 40 miles an hour. The passengers crowded the platforms and the windows and whooped it up for the Jack. The Jack went completely insane and raced the train for miles, never losing an inch or a jump. As the train and Jack flashed past the last mile post neck and neck the Jack curled up in the air in the middle of a jump and lighted, squatted on his haunches, and rubbed one of his forefeet over his nose. The Jack rabbit is speedy, all right, but he's plumb crazy.—Los Angeles Times.

Rhyming Puzzles.

Picture the agony of the poet who, just as he is approaching the completion of a lyric which is to be a thing of beauty and a joy forever, finds himself suddenly brought up against a word that won't rhyme! The great poets are not easily baffled, says a writer in John O'London's Weekly. For them difficulties exist merely that they may be overcome. He would be a very confident person who would say that there is any word in the English language that is absolutely unrhymable, and it may even be (I know not) that "silver" has found its rhyme mate.

Honey Bee Laughed at Train.

That small and hairy creature, by itself, insect or beast, the honey bee develops great speed on the western plains. In Oklahoma there was a passenger train making the traditional forty miles an hour. It was a warm day and the windows of the cab were wide open on both sides. A honey bee flew through the cab, grazing the nose of the startled engineer, turned at right angles, flew for a dozen miles beside the engine, and then with an intelligent look put on a spurt and disappeared into the land of the rock-wool Tribuna.

"All riches are desirable, and we are justified in seeking them all; but the riches of mind and soul give the greatest happiness and add the most to the value of life. When it comes to the riches of mind and soul can you say you are a millionaire? To be such a millionaire would certainly be worth while, and here we find a new ambition."

SEASONABLE GOOD THINGS.

An old-fashioned apple dumpling is a dessert hard to equal. Roll out rich pastry and cut in squares, place a peeled and cored apple on each square, fill the center with sugar and spice and pinch up the corners. Place in a deep baking dish with a cupful of brown sugar, a cupful of boiling water and two

tablespoonfuls of butter. Bake the dumplings while baking in a moderate oven. Serve with the syrup in the pan if any, or a crumbly, hard sauce.

Apples à la Manhattan.—Peel and core eight medium-sized apples. Cut pieces of sponge cake into rounds an inch in thickness and the size of the apple. Sprinkle the cake rounds with sugar and set into the oven until the sugar melts. Make a syrup of a cupful of sugar and the same of water. Cook the apples very slowly in the syrup. When tender drain and put an apple on each piece of cake. Add half a glass of jelly to the syrup, cook until it is quite thick; then pour over the whole. Garnish with whipped cream and candied cherries.

Afternoon Tea Cakes.—Beat two eggs until light, add one cupful of sugar, one-fourth of a pound of blanched almonds and two ounces of citron chopped together very fine; add the grated rind of a lemon, cloves, nutmeg, cinnamon, mace and cream of tartar, one-fourth of a teaspoonful each add one and one-half cupfuls of pastry flour. Use enough flour to handle and roll into a sheet one-fourth of an inch thick. Cut in pieces three by one and one-half inches, brush over with egg white, decorate with half of an almond in each corner, dredge with granulated sugar and bake.

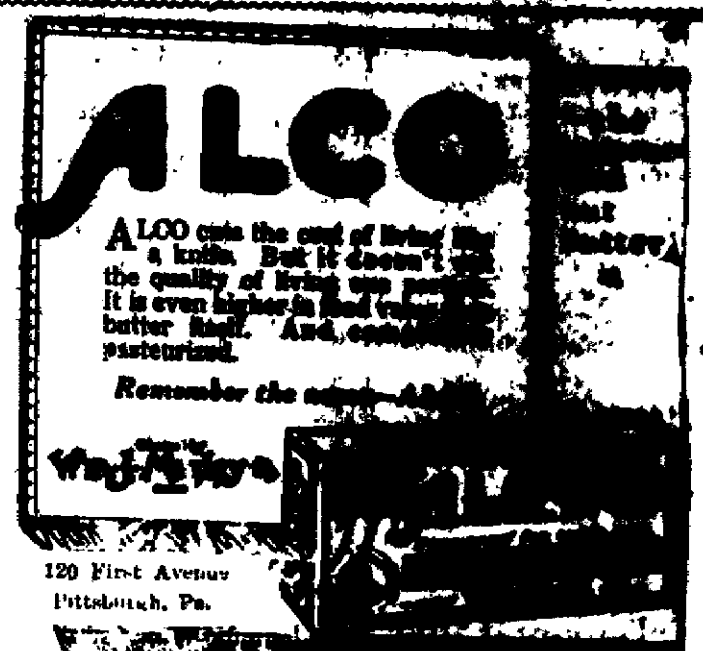

Baked Tripe Spanish Style.—Boil four pounds of fresh tripe until tender; drain and sprinkle with salt and pepper and arrange in a well-buttered dish. Pour over it one quart of chopped tomatoes, season to taste and bake one-half hour in a moderate oven.

"Tell It to the Marines."

Tell it to the Marines is an expression frequently heard in England, although it is not so common in Canada. The Marines were soldiers placed on battleships in the old days when boarding and hand-to-hand fighting were common. As these men did not know anything about seamanship it was a common practice to tell them the most outrageous sea-stories, all of which they would believe. Consequently whenever any one told a particularly tall story he was adjured to tell it to the Marines.

Land of Secret Societies.

China is the land of secret societies. They are numbered by the score, and their members by millions. Many of them have strange names, such as "The White Lilies," "The Red Door" and "The One-Piece Incense."

POLEY CATHARTIC TABLETS

They clear the bowels, sweeten the stomach and tone up the liver. Do not gripe.

J. E. Colver, 125 Labor Temple, Los Angeles, Cal. "After 15 years' experience with all sorts and kinds of cathartic remedies, I can truly say Poley Cathartic Tablets, and they are the best I ever used."

HAND MADE CLEAR TOYS

Made of all cane sugar, clear as a crystal. Those who care for these goods should leave their order in advance as a limited amount will only be made. Especially the larger sized ones.

McCARTY'S

Under the Mistletoe

This quaint holiday custom, brought down thru the ages, will remain with us forever, we believe. So will the giving of flowers at Christmas time. Here you are assured only quality flowers, delivered to your friends as you expect them.

And Hang It in the Trophy Room. A pike weighing twenty-six pounds, upon being hooked by a Cheshire fisherman, pulled him in the canal. His escape was much regretted by the fish, who had decided to have him stuffed.—London Punch.

The First Keyboard, of which there is record was that of the hydraulic or water organ, a Greek invention of the Second century. In this the keys, eighteen in number, were all level. The modern chromatic keyboard was in use as early as 1361. The keys were so large they had to be struck with the fist.
